

Business Item 2026-191

Interceptor 1-MN-346 Rehabilitation – Phase 2, Contract
26P083

Environment Committee: October 27, 2026

Jeff Schwarz

Project Area

29th Avenue South from 53rd to 56th Streets East in Minneapolis

Project Scope

1-MN-346 Rehabilitation Phase 2

- Remove and replace 2,000 feet of 60-inch diameter sanitary sewer pipe to correct severe sagging and restore capacity.
- Reroute 75 residential interceptor connections to a new city trunk sewer to resolve historic sewer shed drainage issues.
- Upsize an existing city lift station to accommodate additional flows from the new trunk sewer.

Project Schedule

Milestone	Date
Bidding	September 8, 2026
Award Contract	November 2026
Contractor Notice to Proceed	December 2026
Construction Start	Spring 2027
Substantial completion	Summer 2029
Final Completion	Fall 2029

Proposed Action

That the Metropolitan Council authorize its Regional Administrator to award and execute contract 26P083 with Minger Construction, Inc. for the construction of Interceptor 1-MN-346 Rehabilitation – Phase 2 in an amount not to exceed \$22,226,315.
