

# Committee Report

Environment Committee

Committee meeting date: May 12, 2026

For the Metropolitan Council: May 13, 2026

## Business Item: 2026-95 SW

Awards for the 2026-2028 Water Efficiency Grant Program

### Proposed action

That the Environment Committee approve Business Item 2026-95 SW and recommend that the Metropolitan Council authorizes its Regional Administrator to award and execute the 2026-2028 Water Efficiency Grant Program awards up to the recommended award amount in Attachment A to the total amount of \$1,399,000. And that any remaining or returned funds will be redistributed to participating municipalities at staff's discretion.

### Summary of Environment Committee discussion/questions

Henry explained why the one city that was denied a grant was determined to not meet the criteria of the program and how they were informed of the decision. Chair Cederberg inquired about how many new cities applied for the grant program.

Motion by CM Morales, seconded by CM Lindstrom. Motion carried.

## Business Item: 2026-95 SW

Awards for the 2026-2028 Water Efficiency Grant Program

<b>District(s), member(s):</b>	All
<b>Policy/legal reference:</b>	Minnesota Session Law 2025, Chapter 36, Article 1, Section 2
<b>Staff prepared/presented:</b>	Henry McCarthy, Senior Environmental Scientist, Water Resources (651-602-1946) Judy Sventek, Manager, Water Resources (651-602-1156)
<b>Division/department:</b>	Environmental Services / Water Resources

### Proposed action

That the Environment Committee approve Business Item 2026-95 SW and recommend that the Metropolitan Council authorizes its Regional Administrator to award and execute the 2026-2028 Water Efficiency Grant Program awards up to the recommended award amount in Attachment A to the total amount of \$1,399,000. And that any remaining or returned funds will be redistributed to participating municipalities at staff's discretion.

### Background

The Metropolitan Council (Met Council) will implement a Water Efficiency Grant Program (WEGP) effective July 1, 2026 to June 30, 2028. Grants will be awarded on a competitive basis to municipalities that operate or are served by a municipal public water supply system.

In this program, municipalities design and operate their own rebate or grant programs, which are funded by the Met Council with pass-through funds from the Clean Water Land & Legacy Amendment. The Met Council will provide 80% of the program cost; the municipality must provide the remaining 20% of the program cost.

The WEGP focuses on grant activities that reduce existing water use at residential, commercial, and municipal properties. Met Council-approved grant activities include the replacement of specific water-using devices with more efficient alternatives, irrigation system audits, and the conversion of turfgrass to low-input, drought-tolerant landscapes at municipal properties. Additionally, municipalities operating a residential-facing rebate or grant program may elect to include a low-income cost assistance option in their program. Residents or households who meet a certain income threshold are eligible to receive full cost coverage for the replacement of an approved indoor water-using device with a WaterSense or Energy Star alternative. Residents and businesses participating in a municipality's program must be connected to a municipal water supply system.

Grants will be made available in amounts with a minimum of \$5,000 and a maximum of \$75,000. In

the event that there are unused or returned funds, municipalities may apply for a grant amendment to increase their award beyond \$75,000 (at the discretion of Met Council). If a municipality decides to offer the low-income cost assistance option, they can apply for an additional \$10,000 (max grant amount of \$85,000). Grantees will be required to submit quarterly reimbursement requests and provide actual or estimated water savings achieved through this program for Clean Water, Land & Legacy Amendment reporting purposes.

### **Rationale**

Water demand in the Twin Cities metropolitan area is increasing in concert with population increase. This increase in water demand is placing greater stress on the aquifers that provide potable water to 75% of the residents in the metropolitan area and contributing to the need for additional water supply wells. The Water Efficiency Grant Program will provide financial aid to communities to replace old and inefficient toilets, clothes washers, showerheads, faucets and faucet accessories, irrigation controllers, irrigation spray sprinkler bodies, and dishwashers with more efficient WaterSense and Energy Star-labeled replacements. The Water Efficiency Grant Program will also provide financial aid to communities to fund irrigation system audits by an Irrigation Professional certified by a US EPA WaterSense program. The Water Efficiency Grant Program will also provide financial aid to communities to fund turfgrass conversion to low-input plantings on municipal properties. This suite of grant activities will help reduce stress on our aquifers and potentially reduce the number of new water supply wells needed in the future.

### **Thrive lens analysis**

On Feb. 12, 2025, the Council adopted Imagine 2050, which builds on policy direction in Thrive MSP 2040. Under the Thrive 2040 lens, this action supports the stewardship and sustainability outcomes and the water sustainability goal of the Water Policy Plan. Under the Imagine 2050 lens, this action supports the regional goals of an equitable and inclusive region, a dynamic and resilient region, leadership on addressing climate change, and protection and restoration of natural systems. Increased water efficiency will help protect our aquifers and save money for both residents and utilities.

### **Funding**

The Water Efficiency Grant Program is funded by Minnesota Session Law 2025, Chapter 36, Article 1, Section 2: \$650,000 the first year and \$750,000 the second year are for grants that implement water demand reduction measures. The grants are to assist municipalities in the metropolitan area with implementing water demand reduction measures to ensure the reliability and protection of drinking water supplies.

### **Small business inclusion**

There are no direct impacts to small business contracting with the proposed action.

## Attachment A

CTU	Rounded Award
City of Apple Valley	\$ 40,000.00
City of Arden Hills	\$ 31,000.00
City of Bloomington	\$ 20,000.00
City of Brooklyn Park	\$ 15,000.00
City of Chanhassen	\$ 25,000.00
City of Circle Pines	\$ 12,000.00
City of Cottage Grove	\$ 65,000.00
City of Eagan	\$ 53,000.00
City of Eden Prairie	\$ 22,000.00
City of Farmington	\$ 14,000.00
City of Forest Lake	\$ 28,000.00
City of Fridley	\$ 15,000.00
City of Hopkins	\$ 17,000.00
City of Lake Elmo	\$ 49,000.00
City of Lakeville	\$ 48,000.00
City of Lino Lakes	\$ 21,000.00
City of Little Canada	\$ 26,000.00
City of Mahtomedi	\$ 14,000.00
City of Maple Grove	\$ 35,000.00
City of Minneapolis	\$ 37,000.00
City of Minnetonka	\$ 61,000.00
City of New Brighton	\$ 27,000.00
City of North St. Paul	\$ 19,000.00
City of Plymouth	\$ 52,000.00
City of Prior Lake	\$ 19,000.00
City of Ramsey	\$ 11,000.00
City of Robbinsdale	\$ 21,000.00
