

Setting the stage for the policy and recommendations discussions (1/2)

Draft Final Report Recommendations Section Concepts

Recommendations on next steps based on studies completed with direction for next steps from workgroup

- ✓ Infrastructure Recommendation Areas
 - Converting from groundwater to surface water source
 - Reuse of stormwater
 - Reuse of wastewater
 - Lake augmentation
 - Projects designed to increase recharge

Setting the stage for the policy and recommendations discussions (2/2)

- ✓ Policy Recommendation Areas
 - Conservation and water use reduction
 - Pricing methods to promote reduction
 - Policy needed to further reuse and recharge in this area
 - Policy around switching from groundwater to surface water
 - Policy around furthering local wastewater treatment and reuse
 - Other policy changes needed/what is missing?
